You spelled MPX in 9MM wrong :0(

Science. It's like magic, but with electricity!
"....capable of firing 1200 rounds per minute" What's more impressive, is that the people he was selling to must have been capable of doing 240 mag changes per minute!! - kodiakjack

SIG SAUER MCX CARBINE 5.56X45 WITH 16" BARREL, PATROL BLACK #SIGLWRMCX-16B-TFSAL-P

In Stock Reminder

Sold Out

~~\$2,335.99~~

The SIG MCX is an innovative rifle system built around a proven core: SIG's gas-operated, short-stroke piston system. Trust it for the outstanding performance, no matter the conditions, that you've come to expect from the leading name in firearms.

- AR-Style, Ambidextrous Control
No retraining required. The SIG MCX features a familiar, AR-style ambidextrous selector, bolt release, magazine release and charging handle.
- Rotating Bolt System
A fully locked and closed rotating bolt system provides maximum safety.
- Short-Stroke Piston
Reduce recoil and fouling with the gas-operated, short-stroke piston system.
- Two-Position Gas System
The two-position adjustable gas system allows the user to increase or decrease gas as needed depending on ammunition, muzzle devices, or adverse conditions.
- 30/5 aluminum magazine
- folding stock
- folding sights
